# Orpheum Theatre Fraternal Meetings WATER PROBLEM

Possible Way Found to Acquire Funds for Kaimuki Reservoir.

HAEMONY LODGE NO 3, I. O. O. F.

Meets every Monday evening, at 7:30, in Odd Fellows' Hall, Fort Street. Visiting perintendent Campbell are trying hard to find some solution of the Kaimuki ambassador is accompanied by his to find some solution of the Kaimuki ambassador is accompanied by his reservoir problem, but as yet they have wife, who is a famous graduate of not worked out a feasible plan for get- Vassar. ting the \$43,000 needed for the construction of this much needed extension of the waterworks system.

> The trouble is that the legislature ashore. At the consulate the ambas tied up the funds so tightly that it sador will meet his friends and reseems almost impossible to pry loose enough to pay for the construction of the reservoir for which the residents also visit neighboring plantations. In of Kaimuki have been praying so long. And yet, the government is compelled as things now stand, to keep on paying for the pumping of water into the old of the University of Tokio. After his cracked reservoir, from which much of graduation from the highest educationit promptly runs into the small lake that has formed near the reservoir, chief of the bureau of foreign rela-Both Mr. Mott-Smith and Mr. Campbell figure that it would be in the end cheaper to construct a new reservoir than to pay for trying to keep the Russo-Japanese War. Upon the conpresent structure full.

A construction of the law passed by took up the arduous work of concludthe legislature last April has been suggested which may prove to be the solution of the problem. Act 105 of the Session Laws of 1909 provides that the ambassador, to Vienna, where he remoneys derived from the Honolulu mained about eighteen months, He was waterworks and sewerworks shall be recalled to Japan, and shortly after apportioned, first to the expenses of maintenance and operation; second to the payment of interest upon the indebtedness of the Territory incurred governments is concluded. Ambassafor the construction, improvement and extension of the works; third, for the extension and improvement of the works, and fourth, for the payment of the indebtedness, not less than ten per cent. of the gross receipts to be set aside each year for the last named pur-

In other words, if there is anything left after all other expenses have been met, it may be applied to extension and improvement. But the trouble is that there is not enough left to do much extending, as the law is now construed. The interests on the bonds eats up about \$32,000 a year.

The question arises, however, as to whether the interest upon the entire bonded indebtedness should come out of the water and sewerworks receipts, present. Acting-Secretary Cooper reor whether the system should pay the ported that a wireless message had been interest only on what the system now received from Baron Shibusawa aboard actually stands the government in. In other words, the waterworks sys- of commerce for its entertainment dur-

tem has for years been returning a sur- ing the stay of the Japanese commisplus. It has partially paid for itself, and the fact that the bonds are still outstanding does not mean, some people the chamber of commerce, by letter, hold, that the waterworks system on behalf of the commissioners. should be obliged to stand the entire expense of interest, since the surplus has gone into general revenues.

If the surplus thus far turned into the treasury and applied elsewhere be deducted from the amount of the total bonded indebtedness now charged against the water and sewer works system, the difference in interest chargeable to the waterworks would be about \$10,000 a year. Of course, this interest would have to be paid, but it is held by some lawyers that it need not, under that construction of the law, come out of the revenues of the waterworks department. That being the case, the department would have about \$10,000 a year more to spend in extension and improvement of the system.

If this reading of the law be held correct, it may yet be possible for the executive and administrative officers of the government to find the funds with which to build the much needed Kaimuki reservoir,

## JUST IN TIME

Some Honolulu People May Wait Till It's Too Late. Don't wait until too late.

Be sure to be in time. Just in time with kidney ills Means curing the back Before backache becomes chronic; Before serious urinary troubles set Doan's Kidney Pills will do this:

Here is testimony to prove it. Mrs. Mary Hinson, 21 Strother St., Mt. Sterling, Ky., says: "I believe that if I had not used Doan's Backache Kidney Pills, I would not be living today.

My health was very poor and two of our best physicians stated that I had diabetes and could not expect to recover. They gave me a year to prepare for my sad fate. The kidney secretions were very unnatural and contained a heavy sediment and at times my body became bloated. I was nervous and suffered severely from headaches and dizzy spells, during which spots floated before my eyes. I often had to grasp something for sup port. My back was also very weak and I could not stoop to button my shoes, in fact, could hardly get around I was so much impressed by a testi monial given in favor of Doan's Backache Kidney Pills that I decided to try them and procured a box. They gave me immediate relief and I continued taking them until I was in good health. I have but little trouble from my kidneys now, thanks to Doan's Backache Kidney Pills."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50' a or will be mailed on receipt of price b the Hollister Drug Co., Honolulu, whole sale agents for the Hawaiian Islands. Remember the name, Doan's, antake no substitute.

The next sailings of the American-Hawaiian line from the Coast are the Virginian, from Puget Sound on December 14, and the Mexican, direct from San Francisco for this port on Section Director. January 3.
